

Potential Barriers & Solutions

As part of planning the implementation of ARK in your hospital, its important to identify and discuss the main barriers to using the decision aid and undertaking “review and revise” in your hospital. During the ARK-Hospital trial, champions found it helpful to complete a checklist of potential barriers and solutions to aid planning.

Potential Barriers	Chosen Solution/s
<i>Example: Senior clinician buy in - Conflict with surviving sepsis, safety, resistance</i>	<i>Example: The online learning. Discussion, engagement</i>
<i>Example: Junior clinician engagement</i>	<i>Example: Meetings, posters, Huddles, regular contact</i>

Potential Barriers	Chosen Solution/s
